Friend of the Enemy is inspired by the true story of a World War II Prisoner of War camp in rural Texas, where German prisoners coexist uneasily with locals wary of sharing their town with the enemy.

Lamar, a Texas rancher and World War I veteran hardened by loss and isolation, is assigned a German POW named Jürgen to help with labor on his land. Jürgen is intelligent, polite, and clearly out of place. He's neither a fanatic nor a villain, but a man trying to survive captivity with dignity.

Despite the war and the cultural gulf between them, the two men form an unlikely bond through shared work, mutual restraint, and an unspoken understanding of grief and duty. As their friendship deepens, the fragile peace surrounding the camp begins to fracture, tensions among the prisoners erupting into violence. When personal conscience collides with wartime hostility, Lamar must confront compassion as an act of defiance and duty.

Ambi believes in cooking made with love; Gordon believes in selling it at any cost. When their food trucks collide in an absurd battle for customers, both cross lines they once swore they'd never cross.
